OBJECTIVE

To pursue a challenging career as a Full Stack Developer where I can apply my knowledge of Java, HTML, CSS, and MySQL to develop efficient and user-friendly web applications. Eager to learn emerging technologies, strengthen my technical skills, and contribute to organizational growth by building innovative and reliable software solutions.

EDUCATION

B.Tech – Computer Science and Business Systems 2024–2028

Ramco Institute of Technology

CGPA : 6.97

Sri Rao Bahadhur AKD Dharma Raja Girls high sec school – HSC : 69.83% (2023 – 2024)
Sri Rao Bahadhur AKD Dharma Raja Girls high sec school - SSLC : 74 % (2021 – 2022)

SKILLS

Programming Languages : Java
Web Development : HTML, CSS, JavaScript
Database : MySQL, MongoDB
Tools/Platforms : Arduino IDE, Canva, Antigarvity, VS code

PROJECTS

AI Failure Memory Network

• **Technologies used** : Artificial Intelligence (AI), Machine Learning (ML), Data Analytics, Cloud Computing, Web Tech

AI Failure Memory Network is an AI-based platform that analyzes past startup failures, identifies business risks, and provides intelligent recommendations to help entrepreneurs make better decisions and achieve sustainable growth.

Blood Bank Management Systems

• **Technologies used** : Java, Spring Boot, MySQL, HTML, CSS, JavaScript, Bootstrap

Blood Bank Management System is a web-based platform that manages blood donors, emergency requests, and blood inventory, with nearby donor identification and a secure admin dashboard for efficient blood bank operations.

Medisphere Cognitive Twin

• **Technologies used** : Angular, Java, Spring Boot, MongoDB Atlas, Rest APLs, TypeScript, Machine Learning, SHAP

MediSphere Cognitive Twin is a smart healthcare platform that integrates patient management, health monitoring, clinical alerts, and AI-based risk assessment into a single dashboard to support better clinical decision-making.

INTERNSHIP

Trios Technology Pvt. Ltd. – Web Development Intern (1 Month)
Developed an Online Shopping Website using HTML, CSS, and JavaScript for frontend development, Java for backend development, and MySQL for database management. Implemented user interface and essential e-commerce functionalities.
Technologies: HTML, CSS, JavaScript, Java, MySQL.
Infosys - Java Intern (1 Month)
Developed a Healthcare Clinic Management System to manage patient information, appointments, and clinic operations. Worked on frontend development, backend services, and database integration**.**
Technologies: Angular, TypeScript, Java, Spring Boot, MongoDB Atlas, REST APIs.

ACHIEVEMENTS

IDEATHON 2026 – Second Prize (AAA College of Engineering and Technology)
IDEATHON 2025 – Second Prize (PSR College of Engineering and Technology)

CERTIFICATIONS

GenAI Powered Data Analytics Job Simulation - TATA/Forage (OCT 2026)
Data Analytics Job Simulation - Deloitte (JUL 2026)
